

**METI Government of JAPAN
Japan Internship Program**

* Calculated based on the total number of host companies / interns who responded in the questionnaire for the 2017 Internship in general that they were "very satisfied" or "mostly satisfied"

Your chance to find a new career in Japan!

By doing internships in Japan, young people from developing countries can study overseas business strategies at Japanese company headquarters and acquire the skills and expertise from Japanese companies, trained as global leaders capable of working in Japan, in their home countries, and in the wider world in the future.

See the website for more details! Many examples of activities have been posted!
