

PHP Developer

Join a dream team

Can you see yourself building a career in a successful software development and consulting company in Ho Chi Minh City working for clients in Europe and US? - We are building new specialist teams that will be dedicated to highly ambitious projects.

Are you

- Among the best when it comes to coding and building eCommerce sites using Magento?
- Proactive, highly ambitious, innovative but still pragmatic.
- Curious, courageous, flexible, have a strong drive with a sense of urgency and you “dare to fail” to achieve outstanding results.
- Able to communicate with clarity, purpose and transparency in all you do.

If you have the skills and can see yourself in this, you could become part of our journey.

Your Responsibilities

Work closely and build eCommerce websites with Magento. You will be in charge of maintain and develop new features adherent to the roadmap of the product. All that in close collaboration with project manager and client.

Required Skills and Abilities

- Having a Bachelor Science in Computer Science/Information Technology.
- Minimum 3 proven years experiences in web development technologies. And 2+ years experiences using Magento.
- Minimum 2+ proven years experiences on Frontend side with HTML, JavaScript, CSS.
- Experience with custom theme, plugin development and responsive design.
- Experience with deployment process and platforms: Nginx, Apache and Linux.
- Experience with code management: Git.
- Experience with working with MySQL, database administration and queries.
- The candidate must be able to communicate effectively in speaking and writing English.

Who we are
