- An excellent working environment in developing tomorrow's features
- Open and honest culture where people are valued, treated fairly, trusted and empowered
- Training and career development opportunities
- 40 flexible working hours per week from Monday to Friday
- English classes 3 hours a week with qualified foreign teachers
- Extra 24/7 Health and Accident Insurance
- Annual health check-up
- Annual company trip
- Annual family day
- Sport clubs
- Music club
- Yoga club

JOB DESCRIPTION

Come join our team and be part of developing the latest **5G Radio technologies** that will be used by billions of people around the world!

Your responsibilities include but not limited to the following:

- Develop production software for radio products
- Develop and execute manual and automated testing procedures
- Troubleshoot issues and provide corrections
- Support activities primed by other groups such as hardware bring-up, hardware/software integration, performance verification, etc.

At DEK Technologies Vietnam, you will live with Agile & Lean principles where employees are empowered at all levels to collaborate cross-functionally, to take pride in collective ownership, to improve yourself by continuously learning, practicing & sharing with others.

JOB REQUIREMENTS

If you have just graduated from University with a Bachelor Degree in either Information Technology, Computer Science or a related degree with:

- Strong IT background;
- C/C++ software development passion;
- High teamwork spirit;
- Eager to learn new technologies;
- Basic English communication;
- Knowledge about embedded system, Realtime OS, and Linux is an advantage
